Child Care & Education

2014-2015 School Year

The YMCA knows that your child’s education and character development are of the utmost importance to you. We offer both Preschool programming as well as School Age Child Care for children all in a safe and caring environment. Children will thrive in this setting with opportunities to make new friends, participate in group activities, get help with their homework, and more! Preschool children will engage in field trips, dramatic play, learning centers, and art, just to name a few!
**SCHOOL AGE CHILD CARE**  
**Grades K-5**  
YMCA School Age Child Care (SACC) offers kids a safe, well-supervised, fun, and nurturing environment to go to after school. School Age Child Care offers learning centers, arts and crafts, service learning projects, character development time, swimming, games, outdoor play (weather permitting), homework time, a snack and more. Financial assistance is available.

Effective September 2014 our SACC program will be tuition based in order to provide more consistency and convenience in our programs. There are two tuition options available: part time in which your child attends one to three days per week and full time in which your child attends four or five days per week. Our tuition is based on the price of the program for the year and then divided into 10 equal payments. Each month you will pay 1/10th of your total childcare bill, regardless of the number of school days actually occurring in that month. Please contact the branch for more information.

New York State Office of Child and Family Services and the YMCA require that certain items be obtained from program participants prior to their start in the program.
